Orlando, Florida, 32803

Dear Richard,

On behalf of Holy Trinity Greek Orthodox Church, we would like to take this opportunity to thank you and your entire staff for the excellent job of designing and building our new Community Center.

Your architect, Chris Ness, engineer, Joe Robertson, and Richard McCree, Jr. worked tirelessly for over six months with our Building committee to design a building that would meet our immediate needs and grow with our future requirements.

Your project manager, Paul Conrad, and project supervisor, Billy Webb, worked with our church representative and design committee to provide us with a first class facility. You finished our project on time and within budget while being flexible with our requests.

Thank you again for your professionalism and the expertise you brought to our project.

Sincerely

Joyce L. Yarbrough  
President, Parish Council
