"In God We Trust"

March 22, 2005

Mr. Joe O. Robertson, PE  
Vice President  
McCree, Inc.  
500 East Princeton Street  
Orlando, FL 32803

Dear Joe,

McCree has been the Design/Builder for three significant projects at our current facilities. Each phase was completed ahead of or on schedule according to specs. Over the years, McCree, Inc. has served our congregation well.

McCree was able to meet our needs and make the planning and construction process as painless as possible. Your designers instructed us how to best use our property and then designed the buildings to expand as God blessed us with members and resources. The materials and building processes suggested was cost-effective while still of high quality.

The McCree team is always a joy to work with. They were always very professional in their approach making comfortable and confident all our members who came into contact with them. Their ethics are above reproach and were always extremely sensitive to our needs and the safety of all on the grounds during the construction of each phase. Your communications with us was frequent and effective, and continued after completion of each phase.

Thank you for all your support through out the years. We will without reservation, when ever needed, highly recommend McCree, Inc. to all prospective customers.

Humbly submitted,

Dr. Larry G. Mills, Pastor
