

October 18, 2006

Mr. Richard McCree
McCree, Inc.
500 East Princeton Street
Orlando, FL 32803

To Whom It May Concern:

McCree has been the Design-Builder on many of Physician Associates' projects and we have future projects already in the works with them.

Being a group of 70 primary care doctors with over 300,000 patients, we knew little about construction when we hired McCree. I am glad to say that from our very first meeting, McCree put me at ease and earned my trust. They explained confusing legalities to me and guided me through the entire process. I was always well informed and felt like they had my best interest at heart. It is for mainly this reason that we continue to use McCree.

We share McCree's philosophy of quality and value and our buildings built with McCree speak for themselves. Physician Associates is growing rather quickly in the Greater Orlando area, and I'm happy to have found a builder who I can trust to guide me through the process. We highly recommend McCree to anyone looking to build.

Sincerely,

Linda Zinkovich
Physician Associates
